I submit the following for Monday
the 8 day of Nov 1926.

I trust you have received from
Senator Welch information regarding Tavel
as party is to read said Special Delivery
to Senator Lane 64 Maine St. Concord N.H.
and expected same to reach him this AM.

Now as to Frank Capricio here
is word of him, a Mr Murphy had
him appointed on the Jersey City Police
and he was the only Italian on said force
and assigned to the Italian District
he was broke for shaking down Italians
was reinstated thru Mr Murphy a Dev.
leader, then was broke again for doing
the same thing said Murphy as told me
said he was a crook; I had my party
go back to his friend as I told him I
would need at least the month and year
when he was broke and also to learn
just the correct offense, he told me that
was what he was broke for.

I expect party to call me up this
PM. at 9 PM. to give me the year &
month. then mail same to you at

Somerille H. J.

The above information I know
is straight as my party is reliable and
can depend on his statement.

Now the general impression among
Reporters and also others I have heard, who
got tired listening to the case that
no one can make head nor tail
out of it, and there is more excitement
and interest in a divorce suit than
in this trial; from what I learn Ben's
man made a liar out of his self
regarding "Goslin".

One reporter said to day among the
others; too bad one of the Jurymen
would not croak so we could get
some action and a story to write.

That envelope I picked up on
Main Street gave to Senator will prove
of some use to you all in the case.
I grabbed it so quick I only saw Alexander
Simpson on it plain but then I think was
other writing and also seal stamp.
I feel like a lot more. Regret Submitted
Simpson is not anxious
to have Hog women on Stand. Stock.
I am not alone on this.
